Chris Hein Solo Cello Extended

概要描述

Solo Cello Virtual Instrument Plug-in with 38 Articulations and Up to 8 Dynamic Layers - Mac/PC Standalone, AAX Native, VST, AU

描述

Definitive Virtual Cello

Best Service Chris Hein Solo Cello is the 800-pound gorilla of cello libraries. Never has a sample library of this magnitude been dedicated towards a single string instrument. For this collection, two cellos — Romantic and Modern — were meticulously recorded with the finest gear to give you a range from classic richness and warmth to hi-fi clarity and precision. This highly-playable Kontakt Player instrument gives you an elegant customizable user interface with extensive scripting capabilities. Ideal for jazz, gypsy, or orchestral music, Chris Hein Solo Cello rocks impeccable sonics and stunningly realistic articulations. Packing over 24,000 samples, 38 articulations, four different legato transitions, and up to eight dynamic layers, Chris Hein Solo Cello is everything you've been wanting in a virtual string instrument.

Genius in the details

One of the reasons Chris Hein Solo Cello sounds so natural in your orchestrations is that the samples were recorded dry, leaving it up to you to define a natural-sounding performance space using the software's onboard convolution reverbs. Chris Hein Solo Cello's DSP effects rack gives you unrestricted freedom in processing your violin sound. What's more, the Ensemble Maker lets you easily transform the solo instrument to an ensemble, taking advantage of all the available articulations. Trust Sweetwater — you'll be blown away by the sheer detail, expression, and functionality of Chris Hein Solo Cello.
