ERA II - Medieval Legends

概要描述

Medieval Virtual Instrument Plug-in with Flutes, Reeds, Brass, Strings, Keyboards, and Percussion - Mac/PC Standalone, AU, VST

描述

Go Medieval

Best Service ERA II Medieval Legends takes your music deep into the medieval. Eduardo Tarilonte, creator of the acclaimed libraries Forest Kingdom, Desert Winds, Epic World, and Shevannai, fortifies your sonic arsenal with a greatly expanded version of the original ERA Medieval Legends release. Offering an exhaustive selection of 70 historic instruments, ERA II is ideal for TV and film soundtrack work, as well as fantasy-oriented game scoring, folk and new-age music, medieval rock, and the like. One of the most unique virtual instruments we've heard here at Sweetwater, Best Service ERA II Medieval Legends includes soundscapes that work seamlessly with the advanced Engine-Player and its elegant, user-friendly interface.

Top Studios, first-call musicians

Samples for ERA II Medieval Legends were recorded in top Spanish facilities such as Madrid's Infinity Studios and Eldana Studios in Dueas. First-call musicians contributed their talents to the project, among them Rinaldo Valldeperas (crumhorns, shawms, renaissance soprano recorder), Efren Lopez (gittern, bass citole, medieval psaltery, medieval lute), Cecilia Nocilli, Lorena Porres, and others. All the instruments and voices were recorded using a Neumann U87 and high-quality preamps from Avalon and Neve. Close-miking techniques were used to avoid room ambience, giving you total control over the mixing process.
