SpectraFoo Complete

概要描述

World Class Signal Metering and Analysis

描述

SpectraFoo was designed to provide all of the tools you need for a powerful suite of digital meters, with all of the resolution of hardware meters at a fraction of the price. With more than 15 individual metering tools, SpectraFoo gives you all of the information you need to analyze and prepare your audio, for production, performance, mastering, or broadcast. SpectraFoo was created for live sound engineers, musicians, post-production houses, and broadcast facilities.

SpectraFoo Complete was created for live sound engineers and mixing engineers. Including tools to measure your acoustic environment or verify the behavior of your external digital devices, SpectraFoo Complete provides the following additions to SpectraFoo:

增加了以下功能

Full featured world-class signal generator

Transfer Function Measurement System

Capture and Static Analysis system

Code-Level Metering
